DETAILED ACTION

Response to Claim Changes

1. The Examiner acknowledges Applicant's amendments to claims 28, 31-33 and 35 to better specify the claimed invention. Based on these amendments, claims 28 and 31-36 are allowable.

Response to Arguments

2. Applicant's arguments, filed 11/24/04, have been fully considered and are persuasive. The rejection of claims 28 and 31-36 has been withdrawn.

With respect to Applicant's arguments that "Style Sheets" does not disclose any reference to rendering or customizing non-markup language applications. "Style Sheets" does refer to rendering of only web page elements that are markup language elements and hence does not disclose rendering of non-markup language applications. This argument is persuasive.

Allowable Subject Matter

3. Claims 28 and 31-36 are allowed. The following is an examiner's statement of reasons for allowance:

With respect to claim 28, the claim is directed towards rendering both web page and components found in non-markup language applications, further in addition to backend processing steps detailed in this claim in reference to the rendering of both the web page and non-markup application components. "Style Sheets" teaches only rendering of markup language components and does not refer to rendering of non-markup applications in addition to further processing steps as laid out in the amended claims. "Style Sheets" further does not provide

motivation for making the rendering of non-markup applications an obvious addition to the reference.

Since claims 31-36 depend on claim 28 and include all of the limitations of these claims, claims 31-36 are considered allowable for the reasons in which claim 28 is allowable.

Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
